Reference: Request for monograph study on Balearic Islands from  
War Dept., Headquarters Army Air Forces, dated 12 Apr. 1943.

1. The only honest reply to Air Corps (so that they can proceed accordingly), is that probably no BALEARICS Monograph as hitherto, will ever be completed by DNI in time to be of value for them in any current operations.

2. The Army Air Corps has been of considerable assistance to F-11, particularly on ALEUTIANS work, and on Oceanography in present '100' studies (also, they have been one of our eager customers, - I understand that they held a plane ready for some days, and sent it specifically for the purpose, from here to Alaska, to take the first copies of ALEUTIANS monograph there (they had previously also done the same thing, as regards the AMCHITKA Island section of same): They comprehend the urgency of time, in these things!
